EDUCATION

The Hong Kong Polytechnic University

Master of Science in Multimedia & Entertainment Technology

Hong Kong

Sep 2022 - Aug 2023

Zhejiang Gongshang University

Bachelor of Science in Network Engineering

Hangzhou, CN

Sep 2017 - Jun 2021

WORK EXPERIENCE

Project Associate (Full Stack Web Developer), The Hong Kong Polytechnic University

Oct 2023 - Present

- Gathered and analyzed business requirements, translating user needs into technical specifications.
- Designed UI from wireframes to high-fidelity mockups for intuitive user experience.
- Built responsive front-end with React.js, TypeScript, and Tailwind CSS.
- Developed scalable back-end with NestJS, Node.js, and MongoDB, with RESTful APIs and GraphQL.
- Participated in OKD (OpenShift) deployment and CI/CD pipeline configuration for automated builds and rollouts.
- Conducted testing and led the full-cycle delivery from concept to production.
- Launched systems for both on-campus and off-campus users.

Frontend Developer & UI Designer (Intern) , Kelite Group Ltd., CN

Mar 2022 - Jun 2022

- Designed and developed corporate website with Vue.js and Figma.
- Delivered responsive, cross-device layouts.
- Maintained and updated site content and functionality.

PROJECTS

The Hong Kong Council for Testing and Certification Official Website | Frontend Developer

- Built official website with React (CRA), implementing multilingual support and cross-device compatibility.
- Collaborated with UI designers to build responsive interfaces that meet WCAG accessibility standards.
- Conducted comprehensive testing including i18n validation and device adaptation.

PolyU FH Chao Prize Official Website | UI Designer & Frontend Developer

- Designed and developed the responsive official website for PolyU FH's international Yuen Ren Chao Prize.
- Managed deployment and ongoing maintenance of the live site.

HireRight (by Brix) Landing Page | Frontend Developer

- Built a landing page for the LinkedIn AI recruiting tool using Next.js, shadcn/ui, Framer Motion, Aceternity UI, and Magic UI.
- Delivered a fully responsive experience with smooth animations and micro-interactions.

UniApp Nail Design Marketplace | Full-stack Developer (Offline)

- Built a cross-platform mini-program with Vue.js and WeChat Cloud, connecting designers, manufacturers, and consumers in the nail art industry.
- Developed both merchant and buyer interfaces for online trading and order management.
- Launched the platform for 6 months, facilitating 8K RMB in sales revenue.
